

TO: Dr. Joel Boyd, Superintendent of Schools

FROM: Linus J. Guillory Jr., PhD, Chief Schools Officer

DATE: January 15, 2021

RE: *Comprehensive Data-Driven Report on Remote Learning*

The following report is in response to a motion by Jackie Doherty:

Comprehensive Data-Driven Report on Remote Learning

Request the Superintendent provide the committee with a comprehensive, data-driven report on Remote Learning throughout the district. The report should include: daily attendance rates for students and staff by grade level/school; class sizes by grade level/school—identifying those classes that were initially in-person vs always remote; the number of Florida Virtual student licenses accessed since Nov. 15 by grade and school, the number of classrooms being led by paraprofessionals by grade level/school. In addition, state law requires students receive daily time on learning of 5 to 5½ hours depending on grade level: What protocols are in place to ensure consistency in structured learning time and quality of instruction districtwide? How will the district re-align staffing support to mitigate the impact of significant differences in class sizes?

The response to this motion contains information from several departments; I want to thank those members for providing the tables/data sets and responses. The “blue” links will take you to relevant resources that accompany/contain the file as some may be difficult to read.

To this end, the motion will be broken down and responded to in sections. The response to this motion will be limited by the capability of our data system and the ability to extract some specific information as requested. We did, however, provide information as close/relevant to the requested information as possible.

Student Enrollment By Grade Level @3%-Snapshot data as of 12/18/20

The number of Florida Virtual student licenses accessed since Nov. 15 by grade and school

Florida Virtual is one of many online/digital resources that educators have at their disposal. Here is a snapshot of the information that we are able to extract at the system level regarding usage.

- Number of students that logged in after 11/15 - I did not count multiple logins
- Total number of people who logged in
- I calculated the # on "non students" from those two points. This would represent classroom teachers, administrators, support special educators, etc.
- The number of classes that were actually accessed by students.

	Non Student Original Log Ins	Students Original Log Ins	Total Original Logins	Number of classes			
Adie	0	0	0	0			
Bailey	10	0	10	0		Non Student Original Log Ins	This number is the number of people who have logged in that are not identified as students. They can be classroom teachers, administrators, special educators, English as a Second Language teachers, etc.
Bartlett	0	0	0	0		Students Original Log Ins	This number represents the amount of students that logged into FLVS. These are only original logins.
Butler	6	112	118	4		Total Original Logins	This number represents the total number of original logins to FLVS.
Cardinal	0	0	0	0		Number of classes	This number represents the total number of classes accessed by students who logged in.

In addition, state law requires students receive daily time on learning of 5 to 5½ hours depending on grade level: What protocols are in place to ensure consistency in structured learning time and quality of instruction districtwide?

Please see the December 15th update regarding structured learning time guidelines.

3. Student Learning Time Regulations:

At the December 15 meeting of the Board of Elementary and Secondary Education, the Board adopted additional amendments to the Student Learning Time (SLT) regulations, 603 CMR 27.00, on an emergency basis. The [amendments \(download\)](#) establish minimum levels for live instruction and synchronous instruction that districts operating hybrid and remote learning models must provide. The amendments include the following standards, effective January 19, 2021:

- Districts and schools operating a hybrid learning model must provide students with access to at least 35 hours of “live instruction” over a 10-school day period, averaged across the grades in the hybrid model (excluding pre-kindergarten and kindergarten). Live instruction means the combination of in-person and remote synchronous instruction.
- Students must have an opportunity to interact with educators each school day, including a required daily “live” check-in between students and educators.
- Districts and schools operating a remote learning model must provide students with access to synchronous instruction each school day; and
- Districts and schools operating a remote learning model must provide students with access to at least 40 hours of synchronous instruction over a 10-school day period, averaged across the grades in the remote model (excluding pre-kindergarten and kindergarten).

Synchronous learning, also referred to as synchronous instruction, is defined in the regulations as “learning that is directed by a teacher and that happens in real time with other students, such as during live, whole-class instruction, and small group work.” Below are a few examples of what does and does not count:

- Counts as synchronous instruction:
 - Live online classes that the teacher leads for the whole class, which may include breakout rooms for students to complete tasks and activities with access to the teacher.
 - Livestreaming of in-person instruction accessed by remote students.
 - Small group instruction while students are learning remotely. In this model, a teacher is present online with their class, working with small groups of students in turn while the remaining students engage in independent or small group work. Students should be able to signal to the teacher that they need support.
- Does not count as synchronous instruction:
 - “Office hours” or other optional check-in opportunities for students to contact or connect with teachers, where not all students are required to be present.

This dashboard provides information about how districts and schools in MA are implementing student learning time requirements for students during the COVID-19 pandemic.

In addition to building master schedules that comply with DESE structured learning time guidance, building leaders complete a structured learning time document. Additionally, each school year, PK-* educators in our system are provided with the District curriculum map.

PRINCIPALS' STUDENT LEARNING TIME WORKSHEET (Page 1 of 2)

School: _____ School Year _____

Level (Elementary, Middle, Secondary): _____ Grades in School: _____

Check One:

- ☐ This worksheet applies to all students within the building.
- ☐ There is a separate copy of this worksheet attached for each instructional group whose schedule does _____ not conform to the school's standard instructional schedule.
(On the separate copy, write the name of the group after the name of the school.)
1. Of the number of student days scheduled in the student year (minimum 170), how many are scheduled early release days or scheduled delayed opening days (e.g., day before holiday, professional development, parent conferences)? _____ days

2. How many annual structured learning hours are students missing due to scheduled early release or scheduled delayed opening?
_____ hrs. _____ mins.
3. The student day begins at _____ A.M. and ends at _____ P.M.; therefore the student day contains:
_____ hrs. _____ mins.
4. How much time is spent per day in homeroom, at breakfast and lunch, passing between classes, at recess, conducting health screenings and preventative services and in non-directed study?
_____ hrs. _____ mins.
5. Subtract the amount of daily non-instructional time in number 4 from the total time indicated in number 3. This gives the daily structured learning time per student.
_____ hrs. _____ mins.
6. How many days in your school year are **ALL STUDENTS** scheduled to attend?
 - Do not include kindergarten.
 - Do not include orientation days unless all students are required to attend.
 - Do not subtract senior early release days.

_____ days
7. Multiply the daily structured learning time indicated in number 5 by the number of student days in number 6.
This equals:
_____ hrs. _____ mins.
8. From the total in number 7, subtract the time not scheduled because of early release or delayed opening indicated in number 2. This gives the amount of annual structured learning time.
_____ hrs. _____ mins.

(See Next Page)

PRINCIPALS' STUDENT LEARNING TIME WORKSHEET

(Page 2 of 2)

School: _____ **School Year** _____

9. List all grades (including kindergarten) in which physical education is taught as a required subject for all students in the grade:

Grades: _____

10. (Only for principals of schools that have grade 12)
What was the last day of attendance for seniors last year?

What was the date of graduation last year? _____
What was the regular scheduled closing date for your school last year?

(NOTE: No other group of students (grades 1-11) is eligible for release before the end of the school year.)

(Signature of principal completing this worksheet)

(Date)

Note: Where this school does not comply with CR 7A, 7B, 7C or M.G.L. c. 71, s. 3 (regarding physical education), an action plan to bring it into full compliance is to be attached to the Superintendent's Student Learning Time Worksheet.

(For M.G.L. c. 71, s. 3 see <http://www.mass.gov/legis/laws/mgl/71-3.htm>.)
